DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 25, 2011 has been entered.
2. Upon careful consideration, the indicated allowability of the claims is withdrawn in view of the rejection under 35 USC 112, 1st paragraph (described below). The Examiner regrets this late rejection and, to expedite matters, applicant is invited to contact the Examiner to discuss ways to obviate the rejection and work toward language to distinguish the claimed invention over the prior art.

Claim Rejections - 35 USC § 112, 1st paragraph

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
4. Claims 1, 17-19, 36, 40, 43-49, 68, 70, 71, 73, 74 and 76 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in

such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

It is respectfully submitted that, upon careful review of the present disclosure, no support could be found for the limitation "permanently" as it pertains to the layer of adhesive fixedly attaching the base portion and the covering as set forth in the independent claims 1, 40, 47 and 60.

Claims Not Rejected Over Prior Art

5. Claims 1, 17-19, 36, 40, 43-49, 68, 70, 71, 73, 74 and 76 are considered to read over the prior art of record because the prior art or record does not teach or suggest the claimed combination of features including the layer of adhesive that permanently fixedly attaches the claimed structure. However, these claims **cannot** be considered to be "allowable" at this time due to the rejection(s) under 35 U.S.C. 112, 1st paragraph set forth in this Office action. Therefore, upon the claims being rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112 set forth in this Office action, further consideration of these claims with respect to the prior art will be necessary.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CLARK F. DEXTER whose telephone number is (571)272-4505. The examiner can normally be reached on Monday, Tuesday, Thursday and Friday.
